SHORTENED STATUTORY PERIOD OF RESPONSE	MAIL DATE	DELIVERY MODE
3 MONTHS	12/18/2006	PAPER

Please find below and/or attached an Office communication concerning this application or proceeding.

If NO period for reply is specified above, the maximum statutory period will apply and will expire 6 MONTHS from the mailing date of this communication.

Office Action Summary	Application No. 10/709,855	Applicant(s) ANDERSEN, JOHN L.	
	Examiner David T. Fidei	Art Unit 3728	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:
The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
2. Claims 14-20 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. In claim 14, line 5 “the panels” has multiple antecedent basis and it is unclear what panels the panels refers to. In claim 20 it is not clear how the subject matter of claim 14 is further limited. The scope of the claim is also unclear.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1-3, 5, 12-14 and 20 are rejected under 35 U.S.C. 102(b) as being anticipated by Spivey et al (US Patent no. 6,105,854). A container is disclosed comprising a first end having at least one panel selectively movable to the close the first end defined by any of panels 40, 42, 48, 50 or 56. The second end has a display panel 68, 70 that partially defines an opening in the second end, note figure 4. A closure panel 76 is selectively movable between a closed position where it covers the opening and an open position where and the opening is exposed, see col. 5, lines 16-18. Contents of the container can be shipped when the at least one panel and closure panel is in the closed position with the contents removed by moving the closure panel to an open position.

As to claim 2, the container further comprises top, bottom and side panels defined by any of 10, 12, 14, 20 and 22 where the display panel and closure panel extends from different panels.

Art Unit: 3728

As to claim 3, the closure panel 76 of Spivey et al is considered secured to panel 10 in the open position by fold line 78.

As to claim 5, the closure panel is considered as covering the display panel by locking tab 96.

As to claim 12, full overlap panels are formed at the first end of the container.

With regard to claim 13, a display panel bottom portion is considered that part of the panels 68, 70 adjacent fold lines 72, 74 with the side portion being that portion adjacent restraining flaps 122, 124.

As to claims 14 and 20, a blank and flat perform is disclosed in figure 1 having the above features.

Allowable Subject Matter

5. Claims 4 and 6-11 objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

6. Claims 15-19 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

REPLY BY APPLICANT OR PATENT OWNER TO THIS OFFICE ACTION

7. Applicant is duly reminded that a complete response must satisfy the requirements of 37 C.F. R. 1.111, including: "The reply must present arguments pointing out the specific distinctions believed to render the claims, including any newly presented claims, patentable over any applied references. A general allegation that the claims "define a patentable invention" without specifically pointing out how the language of the claims patentably distinguishes them from the references does not comply with the requirements of this section. Moreover, "The prompt development of a clear Issue requires that the replies of the applicant meet the objections to and rejections of the claims." Applicant should also specifically point out the support for any

Art Unit: 3728

amendments made to the disclosure. See MPEP 2163.06 II(A), MPEP 2163.06 and MPEP 714.02. The "disclosure" includes the claims, the specification and the drawings.

If no amendments are made to claims as applicant or patent owner believes the claims are patentable without further modification, the reply must distinctly and specifically point out the supposed errors in the examiner's action and must respond to every ground of objection and rejection in the prior Office Action in the same vain as given above, 37 CFR 1.111 (b) & (c), M.P.E.P. 714.02.

Conclusion

8. Any inquiry concerning this communication or earlier communications from the examiner should be directed to David T. Fidei whose telephone number is (571) 272-4553. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Mickey Yu can be reached on (571) 272-4562. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
